INTRODUCTION TO CASR PART 175
WEBINAR

Webinar Overview

Civil Aviation Safety Regulation Part 175 outlines crucial requirements concerning the accuracy and content of information transmitted from aerodrome organisations to both Airservices and flight procedure designers.

The implementation of CASR Part 175 has heightened the accountability of aerodrome managers, reporting officers, and individuals responsible for transmitting aeronautical information on behalf of the aerodrome. This includes rigorous scrutiny of data accuracy and adherence to stringent quality assurance procedures. During this webinar we will unpack in detail how to practically carry out an annual check of the aeronautical information for an aerodrome.

Course Entry Requirements

There are no entry requirements for this webinar, however we recommend that participants already have an understanding of the operational requirements and issues that are relevant to their area of responsibility.

Topics Covered

- What are the aerodromes 175 responsibilities?
- Terminology
- The roles of aeronautical data originators
- Which aerodrome documentation must be checked
- Which AIP information must be checked
- How to check the AIP information practically
- How to interpret the information in ERSA/DAPS/DAH
- Where to find key reference information
- Data Quality Requirements and Data Product Specifications.

Aerodrome Management Services

Fees and Payment

A formalised quote will be provided upon request. At the beginning of your learning journey, you will be issued an invoice for payment. Credit card payments can be made over the phone, please note a 1.5% CC surcharge applies for all credit card payments.

Certification

Those who participate in the webinar can download a Certificate of Participation upon completion.

LMS Subscription Timeframe

Your enrolment fee will licence you to access our Learning Management System for 30-days. If you wish to extend your subscription beyond the initial 30-days additional subscription fees apply.
