WILDLIFE HAZARD MANGEMENT PLAN WEBINAR

Webinar Overview

Have you been tasked with designing and implementing a Wildlife Hazard Management Plan (WHMP), and are a little unsure where to start? Join us in this informative webinar designed to guide you through the process of developing and customising your own WHMP to suit the specific requirements of your aerodrome. Our presenter reflects on his experience as an airport manager, explaining what has proven to work as well as what usually does not work so well.

By the end of this webinar you will:

- have a clear understanding of the essential components of a WHMP,
- understand how to customise your WHMP to address the specific hazards at your aerodrome,
- gain insights into effective strategies for WHMP data collection,
- understand how important wildlife hazard management is in relation to aerodrome safety.

Course Entry Requirements

There are no entry requirements for this webinar, however we do recommend that participants have some experience working on an aerodrome.
